

Advertisement for position as ‘graduate assistant’ (wissenschaftliche Hilfskraft, ‘WHF’)

The subject area ‘Statistical Methods in Genetics and Chemometry’ is looking for students of any Master’s study program at the department who are interested in a position as graduate assistants (wissenschaftliche Hilfskraft, ‘WHF’). The topics are as follows:

- Support (mainly correction, no teaching duties) for the exercises for the lecture ‘Bioinformatics’ (in English)
- Support (mainly correction, no teaching duties) for the exercises for the lecture ‘Klinische Studien’ (in German)
- Assistance in research, especially in the context of programming simulation studies for gene expression data (in English or German, supervised by Franziska Kappenberg)

The contract period and weekly working hours are agreed upon individually for each position.

For the teaching positions, a good grade in the respective lecture is required. For the research position, proficiency in the programming language R and having passed all the requirements for the Master’s study degree are required.

Applications can be submitted to rahhnenfuehrer@statistik.tu-dortmund.de until **10.02.2023**.
