

The Division of **Biostatistics** is seeking a

## (Bio-)Statistician

(Ref.-No. 2023-0004)

*The DKFZ is committed to increase the proportion of women in all areas and positions in which women are underrepresented. Qualified female applicants are therefore particularly encouraged to apply.*

*Among candidates of equal aptitude and qualifications, a person with disabilities will be given preference.*

*To apply for a position please use our online application portal (<https://www.dkfz.de/en/stellenangebote/index.php>).*

*We ask for your understanding that we cannot return application documents that are sent to us by post (Deutsches Krebsforschungszentrum, Personalabteilung, Im Neuenheimer Feld 280, 69120 Heidelberg) and that we do not accept applications submitted via email. We apologize for any inconvenience this may cause.*

The Division of Biostatistics provides state-of-the-art statistical support individually tailored to all scientific duties of the DKFZ. We analyze data ranging from high-dimensional genetic and other molecular origin to in vitro studies and clinical trials. Our team strives to be at the forefront of interdisciplinary research and applied statistics. Our field of activity ranges from biostatistical consulting and statistical analysis of biomedical data to the development of complex methods for specific scientific questions. The application of new techniques in the rapidly evolving field of biomedical research necessitates research for novel biostatistical methods to enable adequate data analysis.

Our division offers:

- A two-year position with the German Cancer Research Center (DKFZ), where you will join a capable and dedicated team of statisticians engaged in collaborative projects involving clinical and laboratory cancer research in cooperation with a variety of interesting clients
- Freedom to develop inventive biostatistical approaches emerging from real-life applications
- A chance to contribute to the advancement of cancer research
- A competent and friendly team situated in the northern part of beautiful Heidelberg

### Job description:

- Provide biostatistical consulting and support for groups at the DKFZ in all phases of their projects in cancer research from the design of studies, data analysis to interpretation and publication of results; special focus of the position is on the design and analysis of preclinical and clinical studies
- Develop and apply novel biostatistical methods and analysis strategies

### Your profile:

- Master / Diploma / PhD in (bio-)statistics, mathematics or a related discipline
- Sound knowledge within the field of statistics
- Solid statistical programming skills, preferably with R
- Very good written and oral communication skills in English
- Strong interest in interdisciplinary research

### Contract period:

The position is initially limited to 2 years with the possibility of prolongation.

The position can in principle be part-time.

*The DKFZ is committed to increase the proportion of women in all areas and positions in which women are underrepresented. Qualified female applicants are therefore particularly encouraged to apply.*

*Among candidates of equal aptitude and qualifications, a person with disabilities will be given preference.*

*To apply for a position please use our online application portal (<https://www.dkfz.de/en/stellenangebote/index.php>).*

*We ask for your understanding that we cannot return application documents that are sent to us by post (Deutsches Krebsforschungszentrum, Personalabteilung, Im Neuenheimer Feld 280, 69120 Heidelberg) and that we do not accept applications submitted via email. We apologize for any inconvenience this may cause.*

### **Important notice:**

The DKFZ is subject to the regulations of the Infection Protection Act (IfSG). As a consequence, only persons who present proof of immunity against measles may work at the DKFZ.
